All students of CSE 2nd Year (Both Shifts) are required to choose a topic for their LCD Presentation. This presentation is scheduled to take place during the current semester. The marks obtained in this presentation will be included in the lab evaluation of all subjects as innovation marks, so it is essential that you approach this task with diligence and dedication.

To make the process more engaging and collaborative, students have to form groups of four based on their choice. We encourage you to work together, share ideas, and choose a topic that not only interests you but also aligns with the technical aspects of your field. All the students are required to update the topic and group information in shared spreadsheet positively by 08-09-2023.
