Department of Electronics and Communication Engineering

NOTICE

We are thrilled to announce the official launch of a new society at Bharati Vidyapeeth's College of engineering, New Delhi dedicated to fostering innovation and excellence in the field of hardware and robotics. Introducing "TechInnovate," a platform for enthusiasts to explore, collaborate, and innovate in the exciting realm of technology.

TechInnovate aims to provide a dynamic space for students passionate about hardware and robotics to come together, share ideas, and embark on exciting projects. Whether you are a seasoned enthusiast or just beginning your journey in this field, TechInnovate welcomes all who are eager to explore the limitless possibilities of technology.

To kickstart our journey, TechInnovate is organizing three workshops in upcoming months, featuring three engaging modules:

1. Sensor Integration with Microcontroller

Delve into the intricacies of sensor technology and microcontroller programming. This workshop module will equip participants with the skills to integrate various sensors with microcontrollers.

2. Drone It Yourself 2.0

Learn the basics of drone assembly, programming, and flight dynamics. Participants will have the chance to build their drones and gain hands-on experience in aerial robotics.

3. Hands-On Projects to Boost Your Resume

Engage in three practical projects that will not only enhance your technical skills but also serve as valuable additions to your resume.
